グローバルCOE「統合物質科学」セミナー

演題

Towards New Perovskite Materials

講師

Prof. Evgeny V. Antipov

Electrochemistry Department, Faculty of Chemistry,
Moscow State University, 119991, Moscow, Russia

日時
会場

平成21年12月17日(木) 13:30~14:30
共同研究棟 CL-401号室

Prof. Evgeny V. Antipov has been working mainly on the synthesis and characterization of transition metal oxides. His main research interest lies in the structure design and synthesis of new inorganic materials with important physical properties.

He has been engaged to many activities in the scientific community, including scientific committees for various conferences, editorial board of scientific journals, Board of Directors of ICDD, and is one of the leading researcher in the field of solid state chemistry.
