INTEGRATED
MATERIALS SCIENCE

グローバルCOE「統合物質科学」セミナー

演題

**Magnetoelectronics:
sensors and other device
applications of multiferroic thin
film heterostructures.**

講師

Prof. Ichiro Takeuchi

Department of Materials Science and Engineering,
University of Maryland

日時 会場

**平成22年7月8日(木) 13:30～15:00
共同研究棟 CL-401号室**

Prof. Takeuchi's interest involves fabrications and characterizations of novel functional devices including a range of materials with novel electronic properties, such as multiferroelectricity. A seminar will cover some topics of sensors and other device applications of multiferroic thin film heterostructures.
